PROFESSIONAL SUMMARY

Senior Shopify Plus Developer with 12+ years in e-commerce for brands in the US, Europe, Australia, New Zealand, and Singapore. Delivered 100+ Shopify and Shopify Plus stores and spent 6+ years in-house on the Timex and Guess Watches storefronts. Focused on work that affects sales: product pages, navigation, page speed, campaign pages, migrations, and root-cause fixes. Uses AI as a coding assistant only, preferring to write the code and check every change personally.

CORE STRENGTHS

- **Reliability:** Retained 6+ years on Timex and Guess Watches storefronts (Shopify, SFCC); reduced recurring defects.
- **Scale of delivery:** 100+ Shopify and Shopify Plus stores, including new builds, theme migrations and revamps, custom development, speed work, app integrations, and platform migrations.
- **Speed without regressions:** Core Web Vitals work in small, tested releases that protect carts, filters, and menus.
- **Remote delivery:** 10+ years across time zones, from requirements and Figma handoff to launch and ongoing support.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), jQuery, React, Next.js, PHP, Laravel, Python, Django, HTML5, CSS3/SASS, Bootstrap, Tailwind CSS
Platforms: Shopify, Shopify Plus, Liquid, Shopify CLI, Salesforce Commerce Cloud (Demandware), WooCommerce, WordPress
Engineering: REST API & third-party integrations, platform migrations, performance optimization (Core Web Vitals), technical SEO, accessibility, debugging & root-cause analysis, cross-browser testing
Data & Tools: MySQL, Git, GitHub, GitLab, Bitbucket, Figma, Google Lighthouse, GTmetrix, Agile/Scrum
Helpdesk & CRM: Jira, HubSpot, Zendesk

PROFESSIONAL EXPERIENCE

Senior E-Commerce Engineer (Freelance) — 2016 – Present

International Clients | Remote | Part-time alongside employment 2016 – 2024, full-time since 2025

- Built, migrated, and optimized 100+ Shopify and Shopify Plus stores, owning delivery from requirements and Figma handoff through Git-based development, launch, and post-release monitoring.
- Optimized page speed on client stores in small, regression-tested releases; typical Google PageSpeed scores went from 20–30 to 50–70 on mobile and from 45–50 to 70–90 on desktop.
- Resolved complex production issues on live stores as sole engineer for small businesses and within 3–5 person teams for mid-to-large clients, tracing root causes across theme code, JavaScript, app conflicts, and platform settings.
- Handled tasks, tickets, and support requests in clients' Jira, HubSpot, or Zendesk.
- Integrated and validated Klaviyo, preorder and back-in-stock apps, store locators, analytics, reviews, and marketing platforms, the tools stores use to capture and keep customers.
- Led a full storefront rebuild for The Artisan Collective on WordPress and WooCommerce, moving products and content and preserving SEO to protect existing search traffic.

Senior Systems Analyst, E-Commerce — Jun 2018 – Dec 2024

TMX Philippines Inc. (Timex Group) | Cebu, Philippines

- Built and maintained production code for the Timex and Guess Watches storefronts across international markets on Shopify and Salesforce Commerce Cloud (Demandware), using JavaScript, Liquid, HTML5, and CSS3/SASS.
- Refined product pages, navigation, content modules, and checkout-related interfaces with product, design, marketing, and QA teams to make the path to purchase clearer.
- Checked speed before deployment: found bottlenecks with Lighthouse and GTmetrix, optimized front-end assets, and verified Core Web Vitals.
- Reduced recurring storefront defects by documenting development procedures and standardizing quality checks within Agile/Scrum workflows in Jira.
- Retained for 6+ years supporting evolving commerce platforms and global business priorities.

Full Stack WordPress Developer
Sep 2016 – Jun 2018

Monstar Lab Cebu, Inc. | Cebu, Philippines

- Built custom WordPress themes, plugins, and reusable templates for clients with PHP, MySQL, JavaScript, HTML5, and CSS3.
- Developed the Yoshinoya website from the ground up and a responsive site for Nuat Thai Spa.

Full Stack WordPress Developer
Mar 2015 – Mar 2016

Social Media Enterprise Pte. Ltd. | Singapore

- Developed and maintained WordPress and Laravel applications for multiple clients, covering front-end features, PHP functionality, database updates, and technical SEO for search visibility.
- Managed website and server migrations with backups, DNS and hosting changes, and production validation to keep client sites online through each move.

IT Administrator
Mar 2014 – Mar 2015

Expressions International | Singapore

- Maintained the online store, advertising websites, and day-to-day IT operations; built HTML email templates for marketing campaigns.
